05/19 Report from Police and/or County/District Councillors

County Councillor – John Peck

Cllr Peck reported to the council that the annual budget had been set which would require an

increase in council tax due to continued financial pressure and the pressure from adult social care and children's services.

Cllr Peck also reported that he had had a meeting with the senior engineer on the A614 project and that the Ollerton Roundabout designs had now been done along with Lowdham. The designs need to be sent to the Secretary of State. The Ollerton roundabout will be larger which will mean land will have to be purchased. All the feed in roads will be dual entry which will increase the flow and lessen the back up. £8 million is due to be spent and the work will take place mainly at night to minimise disruption. The project is a long term one with compulsory purchase and an expected 2022 completion. This should eventually help with the large growth coming to the area. Edwinstowe has 950 homes due to be built.

Cllr Ford updated Cllr Peck on the speed surveys due to take place in Eakring.

Newark and Sherwood District Councillor – Linda Tift

Cllr Tift thanked Cllr Ford for attending the recent planning meeting. She reported that during the District council meeting on 7th February the District had also set its budget with a raise in council tax due to financial strain. At the meeting the District had also agreed to put in place a robust policy against slavery. Cllr Tift will update the council on it's progress. A draft Community Action plan had been put forward with a lot of things in for the Sherwood area and Cllr tift will keep the council updated and add thing to it where possible.

Cllr Tift reported that no candidate papers for the election will be issued until after the 4th Marc with formal campaigning to begin on the 18th March.

Police – Inspector Heather Sutton & PC G Sipson

Cllr Ford issued his thanks to the police for attending the meeting.

Inspector Sutton introduced herself as the District Commander for Newark and Sherwood. Her patch covers Newark and all the villages over 250 square miles. She noted that Newark was given lots of attention and that 73 incidents had been recorded around this area with no crimes. PC Sipson from the Sherwood Neighbourhoods team was introduced, and it was suggested that if the village was having issues with speeding the police could assist in setting up a speed watch group and perhaps come to the village to monitor the situation with a speed gun.

Inspector Sutton reported that Ollerton Police Station is to remain open with the Beat Team located there. From the station to Eakring it is a 9-minute response time if required. Two unused police houses are to be sold in Ollerton and a shared hub between the police and the council would be the preferred future set up.

Cllr Ford asked about incidents in the village and inspector Sutton reported that there were no trends or patterns to the incidents with road traffic collisions not being unusually high. There

have been no burglary's in the area but it was reported by a resident that there was an issue with quad bikes which PC Sipson can review if necessary. Inspector Sutton did note that not all crime is reported and that if anyone was having issues to let PC Sipson know.

The council thanked Inspector Sutton for her informative newsletters and PC Sipson gave the clerk his details to allow the council to contact him if necessary.
